SUMMARY

Certified EKG Technician with a strong foundation in medical terminology, clinical experience, and a commitment to patient care. Seeking a Monitor Tech position to apply my skills in interpreting cardiac rhythms and arrhythmias, accurate documentation, and maintaining telemetry equipment. Known for attention to detail, effective communication, and a collaborative approach, I aim to contribute to a safe and efficient care environment.

WORK EXPERIENCE

Glades Student Grant Association

Grant Writer

Belle Glade, FL
Jun 2019 - May 2021

- Conducted detailed evaluations and assessments to allocate resources, showcasing analytical skills relevant to interpreting telemetry data.
- Collaborated with teams to ensure precise reporting and compliance, reflecting teamwork and accountability necessary in a medical setting.
-

Dough Dough’s Donuts, Inc.

Administrative Assistant

Royal Palm Beach, FL
May 2022 - Jun 2024

- Managed high-priority communications, ensuring accuracy and timeliness, similar to coordinating critical updates in a healthcare setting.
- Maintained accurate records and performed data entry, demonstrating attention to detail necessary for monitoring and documenting cardiac telemetry rhythms.
- Organized schedules and workflows, showcasing the ability to manage multiple tasks under pressure, essential for recognizing and communicating telemetry patterns effectively.
- Ensured compliance with operational standards, reflecting a commitment to precision and reliability in all tasks.

Student Aces

Program Assistant

Belle Glade, FL
Sep 2020 - May 2021

- Monitored and tracked student progress, analogous to monitoring patient vitals or telemetry strips for trends and changes.

- Provided support and guidance, demonstrating strong communication skills required to relay critical information to team members.
- Maintained detailed records of attendance and performance, emphasizing documentation skills applicable to telemetry rhythm analysis.
